Mueller Distributors expands siding, window operation

CINCINNATI - Mueller Roofing Distributors is proud to announce that we have purchased the Cincinnati branch of Sibco Building Products, which will be the new hub for our siding and window distribution in Greater Cincinnati, effective today. It is part of an ongoing commitment to supply local contractors with quality products, knowledgeable staff and efficient service.

“Just as important, it fits with our mission as a family-owned company,” Mueller President Scott Fritsch said. “We appreciate the relationships Sibco has built with its customers and employees, and we promise to nurture them with the same care and attention.”

All Sibco staff at the branch will remain in their current roles, and they will be joined by manager Jennifer Karle, who previously served as window specialist in Mueller’s Northern Kentucky branch. Jennifer has 20 years of experience in the building supply industry and a wealth of knowledge about the products we stock.

Sibco Building Products will continue to operate its Dayton location. Gary Lytle, Sibco owner and founder, said he has fielded numerous offers from larger distributors looking to buy his Cincinnati branch.

“I always chose to remain independent because I value the relationships we built with our customers and employees. I am excited about the partnership with Mueller because they share our values,” Lytle said.

Mueller is a fourth-generation, family owned company based in Lockland, Ohio. Our newest branch, located at 374 Circle Freeway in Springdale, is one of seven warehouse-and-sales locations throughout the Tri-State area, including three in Greater Cincinnati.

The acquisition is part of a concerted effort over the past decade to stock and sell a wider range of exterior building products, particularly siding, windows, gutters and doors. Mueller recently renovated a large warehouse at our Dayton branch to hold siding products from Exterior Portfolio and James Hardie, and our Northern Kentucky branch serves as the hub for Windsor wood windows and our commercial services team. The Springdale branch stocks Exterior Portfolio siding and Vinylmax and Simonton windows.

We plan to hold numerous social and educational events at the new location throughout the winter.
