Mueller Distributors to move into larger Lexington facility

Dear Valued Customer,

Mueller Roofing Distributors is proud to announce that we will move our Lexington, Ky., branch to a larger facility near our current location. It is part of our ongoing commitment to supply local contractors with quality products, knowledgeable staff and efficient service.

The new Lexington location, 1441 Sunshine Lane, is less than a half-mile from our existing facility at 1211 Industry Road. It includes a larger warehouse and more space for loading and unloading materials, which will allow us to stock a larger inventory and serve customers more quickly. We expect to have at least a portion of our inventory in the Sunshine Lane facility by early October and begin selling out of there by mid-October.

The Lexington expansion is part of a concerted effort over the past decade to stock and sell a wider range of exterior building products, particularly siding, windows, gutters and commercial roofing supplies. We recently added a seventh branch to serve as a siding-and-window hub in Greater Cincinnati; we renovated a large warehouse in Dayton to hold siding products; and our Northern Kentucky branch serves as the hub for our commercial services team.

We expect to have a grand opening event at the new location on Thursday, November 16 – and, as always, we will hold numerous educational events throughout the fall and winter. Check with your Mueller sales representative for details as they become available. We appreciate your business and we look forward to serving you for years to come.

Sincerely,

Herbert J. Mueller, Owner/CEO
& Scott Fritsch, President
Mueller Roofing Distributors, Inc.
