

## PRICE INCREASE NOTICE

### Metal Sales Accessory Division

May 26<sup>th</sup>, 2026

Dear Valued Customer,

We continue to see rising costs in the industry due to ongoing volatility in the global and domestic markets. Uncertainty related to the conflict involving IRAN is further contributing to inflation, including rising diesel and natural gas prices. These pressures have significantly increased our overall cost structure, making a price adjustment necessary to maintain reliable supply and service levels.

Given these recent developments, we are issuing a price increase effective June 8<sup>th</sup> 2026.

**6% Aluminum increase**

**4% Steel increase**

New pricing will take effect on all orders received after end of business June 5<sup>th</sup> 2026. You will receive an updated price list that reflects these changes. We trust this approach will allow for adequate material planning and order placement for the best possible pricing.

Please know we appreciate your business and partnership. Thank you for your understanding. If you have any questions or concerns, please do not hesitate to contact us @ 812-944-2733 or at the contact information listed below.
